

SOCIAL MEDIA MANAGEMENT SERVICES

Center Stage Magazine (CSM) recognizes that independent artists need affordable options to help them promote their brand so they can focus on creating music and performing. We feel that we have the skills and personnel to accomplish this in a big way for independent artists.

With our social media following of over 160,000 users on facebook, twitter, Instagram and youtube – we feel that uniquely puts us in a position to promote artists to a large base of fans without having to reach out to a 3rd party entity. We have our special Center Stage Live livestream series that reaches tens of thousands of viewers every episode. We cover many of the major events, such as CMA Fest, CRS, etc. We produce live events such as The Night Before Bash, The Country Rewind Tour, and in 2023 we will be doing a series of shows at the infamous Loveless Café in Nashville. AND – we have a large network of partners that continues to grow in which we can crosspost/share artists to followers on their social media platforms as well.

Partner with Center Stage Magazine and we will develop a campaign specific to you to grow your followers and increase awareness of your brand (YOU)!
